GUERNSEY
POST 

Results of the public consultation on selected post boxes

We would like to extend our sincere thanks to all members of the public who took the time to share their views during the consultation period. We received over 500 responses across multiple channels, each of which was carefully reviewed and considered.

As a direct result of this valuable feedback, 14 post boxes that were initially proposed for closure will now be retained—ensuring continued access in key locations. We believe the revised network offers a balanced approach, maintaining accessibility for our communities while supporting operational efficiency.

Importantly, all but one of the post boxes identified for closure will remain physically in place, with no plans for removal. For those with historical significance, a commemorative plaque will be installed at a later date to honour their heritage and longstanding contribution to the local community.

Results of the public consultation on selected post boxes.
